SECTION A (75 Marks)

Answer all questions

1.

- a. Figure 1 below is a picture of a lock system on a canal. Use it to answer questions which follow

- i. Briefly explain the use of lock systems on a canal.

(2 Marks)

- ii. Explain how the lock system in the picture works

(5 Marks)

b.

i. Define the term waste management

(2 Marks)

ii. Explain the reason why reducing is considered the best waste management method

(2 Marks)

iii. Mention any three challenges facing waste management in developing countries.

(3 Marks)

c. Figure 2 below is a picture showing how a certain type of energy is produced. Use it to answer questions which follow

- i. Identify the type of energy illustrated in the picture above

(1 Mark)

- ii. Explain how the energy in the diagram is produced

(3 Marks)

- iii. Explain **two** main ways in which geothermal energy is used

(4 Marks)

- d. Mention any **three** advantages of hydroelectricity over nuclear energy

(3 Marks)

2.

- a. Figure 3 below is a map showing one of the fishing grounds in the world.
Use it to answer questions which follow

- i. Name the fishing ground marked E on the map

(1 Mark)

- ii. Name the current responsible for formation of this fishing ground

(1 Marks)

- iii. Explain how occurrence of EL Nino affects fishing in this area

(3 Marks)

- b. Define the following terms in relation to trade:

- i. Trade deficit

(2 Marks)

ii. Customs union

(2 Marks)

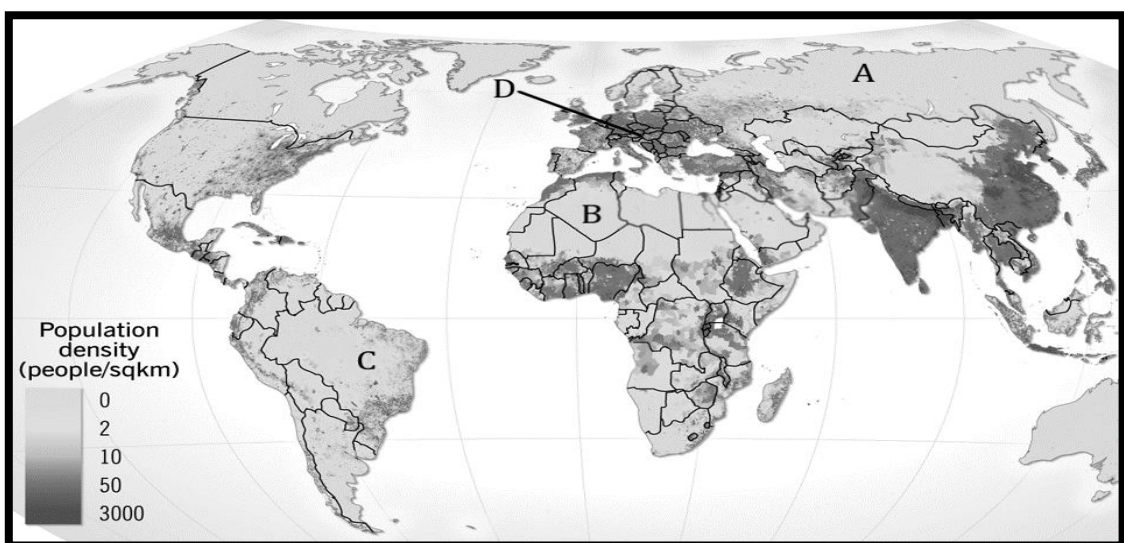

c. Mention any **two** problems associated with customs

(2 Marks)

d. What are the benefits of joining trade blocks? Explain any two points

(4 Marks)

e. Figure 3 below is a world map showing population distribution. Use it to answer questions which follow.

i. Mention any **two** reasons behind the population density in the areas marked:

a) Region A

(2 Marks)

b) Region B

(2 Marks)

c) Region C

(2 Marks)

ii. Explain any **two** human factors that have influenced the population density of region D

(4 Marks)

3.

a. Describe the following terms in relation to desalination

i. Fouling

(1 Mark)

ii. Reverse osmosis

(1 Mark)

- b. Briefly explain how vacuum freezing is used to treat water in Israel

(3 Marks)

- c. Explain the importance of using vacuum tanks when purifying water through distillation

(2 Marks)

- d. Mention any three crops grown under irrigation in Israel

(3 Marks)

- e. Briefly explain why tea harvesting coincides with the rainy season in Malawi?

(2 Marks)

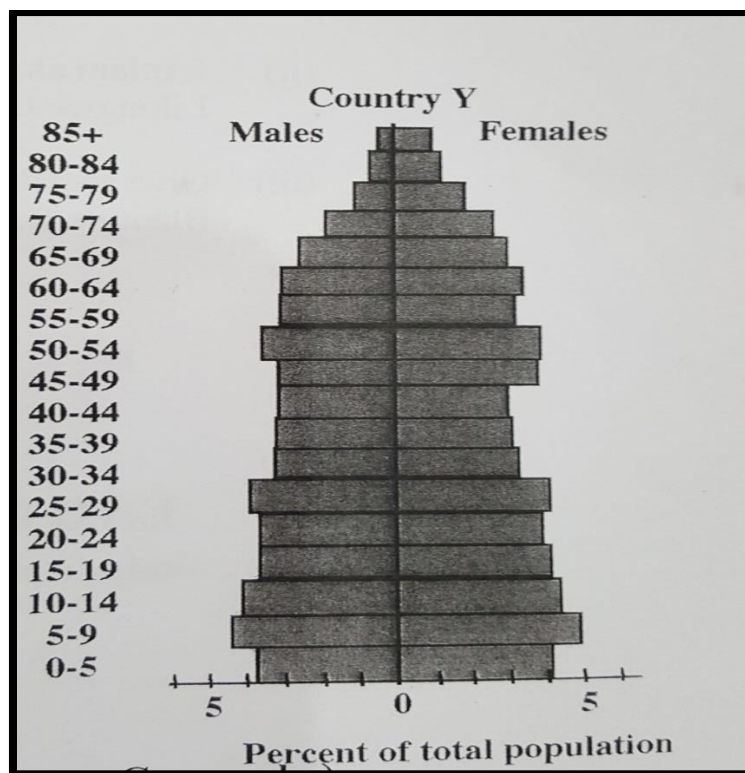

- f. Mention any three challenges facing irrigation farming in Malawi

(3 Marks)

g. Suggest possible solution to the challenges mentioned in (f) above

(3 Marks)

h. Figure 4 below is a population graph for country Y. Use it to answer questions that follow

1) Name the population structure for country Y

(1 Mark)

2) Name one country in Northern hemisphere and one country in southern hemisphere with such population structure?

(2 Marks)

- 3) With reference to the pyramid briefly describe the life expectancy of people living in country Y.

(2 Marks)

- 4) Mention any **two** factors responsible for the shape of the pyramid for country Y.

(2 Marks)

Section B (25 Marks)

Answer **one** question only

4.

- a. Table 1 below is showing the amount of fish caught by different countries 2019 to 2021

Country	2019	2020	2021	Total
Peru		23,567	109, 358	391,566
USA	358,990		345890	
Japan		891,380	947,500	2,705,233
Norway	57,777	89,405		254,884
Total	1,541,761	1,352,242		4,404,453

***catch in tonnes**

- i. Calculate the total annual catch for the four countries in the year 2021

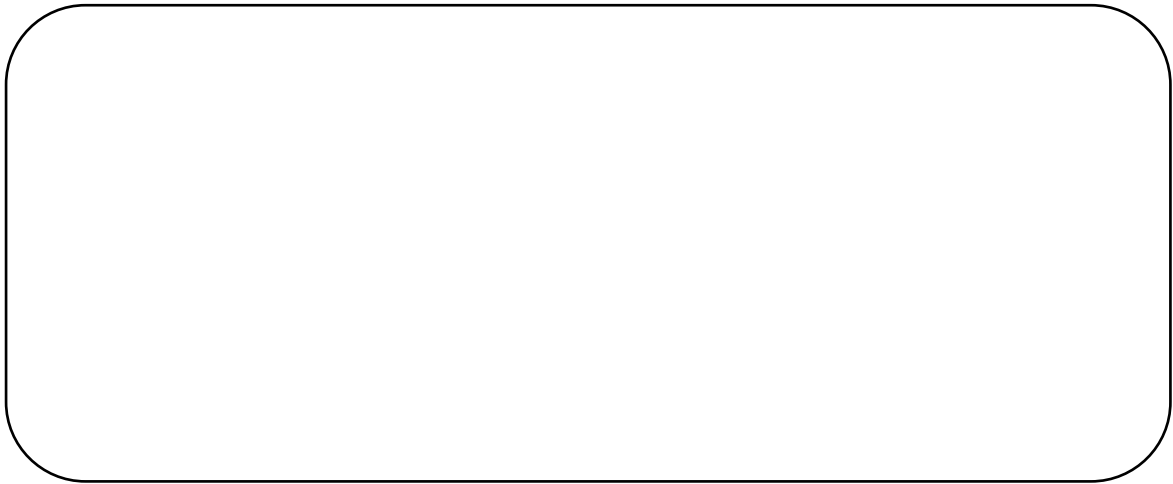

(2 Marks)

- ii. What was the total catch for USA between 2019 to 2021?

(2 Marks)

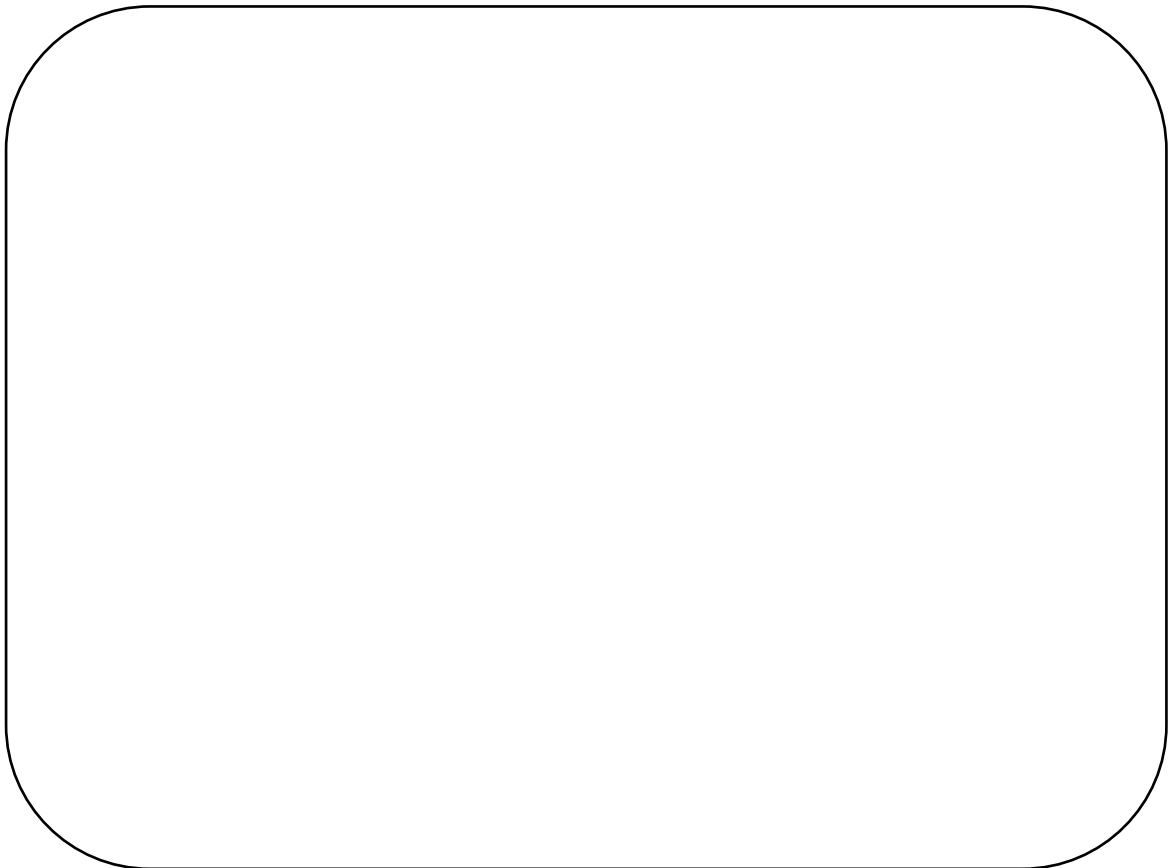

- b. Using a radius of 3cm draw a pie chart to show the total amounts of fish caught by the four countries over the three years. Show your working.

Working

(8 Marks)

Pie chart

(4 Marks)

- c. With the aid of a well labelled diagram describe a linear settlement pattern

(4 Marks)

- d. Mention any **two** advantages of a linear settlement pattern

(2 Marks)

e.

- i. Define an "ore"

(1 Mark)

- ii. Mention any two types of uranium deposits

(2 Marks)

5.

a.

I. Define “Industrialization”

(1 Mark)

II. Explain any one reason why Malawi needs to invest in secondary industries.

(2 Marks)

III. Explain how the following factors influence location of industries

1. Government policies

(2 Marks)

2. Industrial inertia

(2 Marks)

3. Nature of raw materials

(2 Marks)

b. Define the following terms in relation to urbanisation

1. Urban sprawl

(1 Mark)

2. Slums

(1 Mark)

3. Urban bright

(1 Mark)

c. Mention any **three** differences between urban and rural settlements

(3 Marks)

d. Briefly describe how demersal fish are caught by nets

(4 Marks)

e. Mention any **three** challenges facing the fishing industry in Malawi

(3 Marks)

f. Suggest any **three** possible solutions to the challenges mentioned in (f) above

(3 Marks)
